

# BURTON

## Civil Engineering Contractors

### PLANT MECHANIC

Burton Contractors is a successful second generation civil construction business with a professional stand in the industry specialising in a broad range of services to our clients in land development, roads, quarry, and civil works fields. Burton Contractors places high significance on traditional functions while valuing the importance of contemporary and current practices.

We are currently seeking a team focused and motivated Plant Mechanic to join our team at our Prospect Workshop. Reporting directly to the Plant Manager, you will have a good understanding of mechanical, diesel and hydraulic repairs. Experience working on heavy earth moving plant equipment would be highly regarded.

The successful applicant will need to have a flexible approach to daily work activities, problem solving and effective communication skills, with the ability to work unsupervised or within a team. A valid HR driver's licence is essential and competent welding skills would be highly regarded.

In return you will be offered excellent working conditions, which includes competitive rates of pay plus overtime, a company vehicle, opportunity for growth and development.
