TO WHOM IT MAY CONCERN

As Boral's Project Director on the Greystanes Estate Development, Prospect, NSW, I have worked with Burton Contractor Pty Ltd over a number of years in the Estate's large scale earthworks and infrastructure construction. The construction involved working on the Employment and Residential Lands and in the batter stabilisation and land formation in the fully operational Prospect hard rock quarry.

Burton Contractor Pty Ltd has proved a very reliable contractor who takes pride in their work. They have assisted Boral with innovative time and cost saving recommendations during design reviews, minimised Boral's risks during construction by defining scope of works and completing within fixed cost and time parameters, in enhancing site safety when working in the fully operational Prospect Quarry and in completing their construction to high standards.

I commend Burton Contractor Pty Ltd for their straightforward, honest and reliable approach to the completion of construction contracts and wish them continuing success in the development the company.

Dr John Woollett
Project Director
