
Campbelltown Road, Bardia out of hours work community agreement outcome

During the months of March and April, Burton Contractors in accordance with Environmental Protection Licence (EPL) 21040, undertook community consultation with residents along the alignment seeking feedback in regards to extending our out of hours work. Community consultation was achieved through a 'Have Your Say' letter distribution, 3 door knock attempts and 'Sorry We Missed You' flyers detailing the proposed night works and how to offer feedback.

The outcome of the community consultation showed the community to be in favour of the proposed night works and as such, the EPA granted approval for night works to commence. Burton Contractors will begin night works from Monday 10 June 2019. Our night works schedule will consist of 2 shifts per week, with no more than 6 shifts a month.

The community will be notified of any upcoming night works via a letter box drop with at least 5 days' notice.

A summary of the Environmental Protection Authority (EPA) approved project agreement can be found at
